Conveyance is consistent with current BLM land use planning and is in the public interest. The County of Modoc is a qualified applicant for conveyance. Final determination of the Intent to Convey will be made using public comments, an Environmental Assessment (EA) and a Landfill Transfer Audit (LTA). The conveyance document (patent) for the Federal public lands will include the following terms, conditions or reservations to the United States:

1. "A right-of-way thereon for ditches or canals constructed by the authority of the United States. Act of August 30, 1890 (43 U.S.C. 945)."
2. Provisions of the Recreation and Public Purposes (R&PP) Act and applicable regulations of the Secretary of the Interior.
3. All valid and existing rights documented on the official public land records at the time of patent issuance.
4. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals.

Upon publication of this Notice in the **Federal Register**, the public lands described above are segregated from all forms of appropriation under the public land laws, including the mineral laws except for lease or conveyance under the Recreation and Public Purposes Act and leasing under the mineral leasing laws for a period of five years from the date of publication. The segregative effect shall terminate as provided by 43 CFR 2741.5(h)(2).

#### Notice of Intent To Prepare a Land Disposal Plan Amendment for the Judith-Valley-Phillips and West HiLine Resource Management Plans

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the Bureau of Land Management (BLM) will amend the Judith-Valley-Phillips and West HiLine Resource Management Plans (RMPs). The Bureau of Land Management is amending the RMPs to allow the disposal of small isolated tracts which were not specifically identified and listed in the RMPs. The public land being considered is located in Blaine, Chouteau, Fergus, Glacier, Hill, Judith Basin, Liberty, Petroleum, Phillips, Toole, and Valley Counties, Montana. An environmental assessment will be prepared by the Lewistown District Office to analyze the impacts of this proposal and any alternatives.

**DATES:** Comments and recommendations on this notice to amend the Judith-Valley-Phillips and West HiLine RMPs should be received on or before June 8, 1998.

**ADDRESSES:** Address all comments concerning this notice to David L. Mari, District Manager, Lewistown District Office, P.O. Box 1160, Lewistown, MT 59457-1160.

**FOR FURTHER INFORMATION CONTACT:** Jerry Majerus, 406-538-7461.

**SUPPLEMENTARY INFORMATION:** The West HiLine (1988) and Judith-Valley-Phillips (1994) Resource Management Plans (RMP) identified specific parcels of public land for disposal. Under these RMPs, a plan amendment is required for any land exchange, or sale, that involves public land not specifically identified for disposal and listed in the RMPs no matter how small and insignificant the sale or exchange. Over the past seven years this has required six plan amendments to complete eight minor land sales exchanges which ranged in size from 20 to 382 acres. The purpose of each amendment was to dispose of small isolated tracts that were not identified in the RMPs, but upon closer examination did meet disposal criteria. Completing this plan amendment would allow the BLM the option, and flexibility, to identify additional disposal tracts in the future, provided they meet the disposal criteria and the management objectives in the RMPs. Under the plan amendment, additional disposal tracts would not be identified for major land exchanges that do not meet RMP objectives.
